

charnwood 

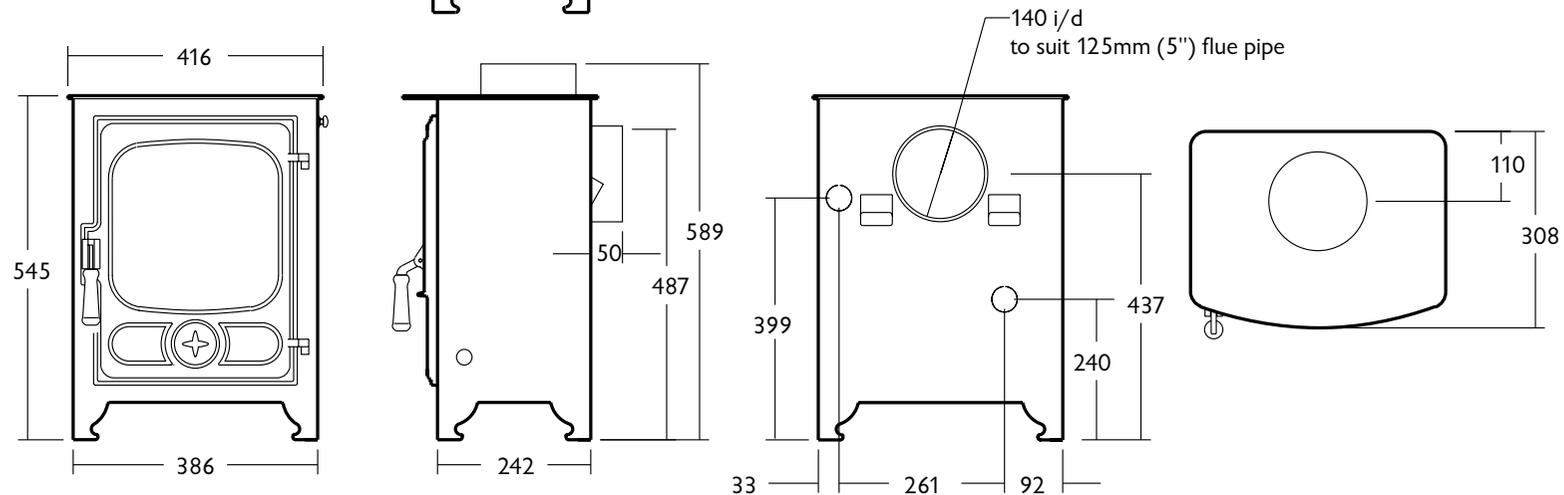

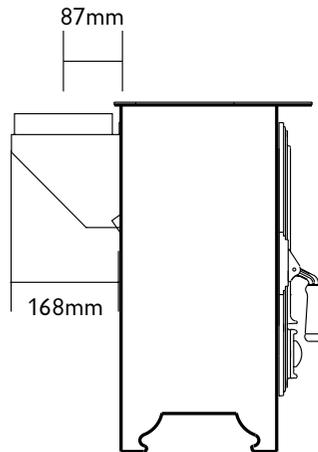

country 4

STOVE DIMENSIONS

The Country 4 is the smallest model in the wood & multi-fuel room heating collection, yet still incorporates the ingenious features of the larger stoves. It is a neat, sturdy, yet graceful little fire and, with an output of around 4kW, still exudes a handsome amount of heat. The single door gives a complete and clear view of the fire and features a spinning primary air wheel for optimum control over the burning rate.

Dimensions of the
